INDEPENDENT AUDITORS' REPORT

Members of the Board Gun Lake Area Sewer Authority

We have audited the accompanying basic financial statements of the Gun Lake Area Sewer Authority, as of December 31, 2005 and 2004, and for the years then ended, as listed in the contents. These financial statements are the responsibility of the Gun Lake Area Sewer Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Gun Lake Area Sewer Authority at December 31, 2005 and 2004, and the changes in financial position and cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

The Gun Lake Area Sewer Authority has not presented a management's discussion and analysis that the Governmental Accounting Standards Board has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Sigfried Crondoll P.C.

March 10, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The Gun Lake Area Sewer Authority (the Authority) was established June 21, 1977, by the Townships of Orangeville and Yankee Springs, in Barry County, and the Townships of Martin and Wayland, in Allegan County, and incorporated under provisions of Act 233, Public Act of 1955, as amended. The Authority is governed by a board comprised of the supervisors of the townships. The Authority was formed to operate, maintain, administer, and manage sewage disposal system, pursuant to Act 185, Public Acts of 1957, as amended, for the benefit of each municipality.

The accounting policies of the Authority conform to U.S. generally accepted accounting principles (hereinafter referred to as generally accepted accounting principles) as applicable to governmental units. The following is a summary of the significant accounting policies:

a) Reporting entity:

In accordance with generally accepted accounting principles and Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, these financial statements present the Authority. The criteria established by the GASB for determining the reporting entity includes oversight responsibility, fiscal dependency, and whether the financial statements would be misleading if data were not included. The Authority has determined that no outside agency meets the above criteria and, therefore, no other agency has been included as a blended or discretely-presented component unit in the Authority's financial statements.

b) Basis of accounting:

The Authority uses the accrual basis of accounting to account for its operations. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Private-sector standards of accounting issued prior to December 1, 1989, are generally followed to the extent that those standards do not conflict with or contradict the standards of the Governmental Accounting Standards Board. The Authority has elected not to follow subsequent private-sector standards.

c) Operating revenues and expenses:

The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with principal ongoing operations. Operating revenues represent billings to the constituent municipalities for operating and maintaining the utility systems located in and owned by the constituent municipalities. Operating expenses include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

d) Assets and liabilities:

- i) Cash Cash is considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.
- ii) Receivables All receivables are considered to be fully collectible.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued):

d) Assets and liabilities (continued):

iii) Capital assets - Capital assets, which include property, equipment, and vehicles, are defined by the Authority as assets with an initial individual cost of more than \$1,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Treatment plant
Building equipment
Sewer lines
Equipment

5 - 40 years
20 years
40 years
3 - 7 years

iv) Compensated absences (vacation and sick leave) - The amount attributed to the Authority is charged to expense and a corresponding liability. Employees may accumulate unused sick leave up to a maximum of 120 days. Employees with ten or more years of service shall receive one-half of accumulated sick leave and all accumulated vacation days upon retirement.

NOTE 2 - CASH:

Cash consists of deposits that are carried at cost and are maintained at one financial institution in the name of the Authority. State statutes and the Authority's investment policy authorize the Authority to make deposits in the accounts of federally-insured banks, credit unions, and savings and loan associations that have an office in Michigan. At December 31, 2005, the Authority has deposits with a carrying amount of \$1,875,724 and a bank balance of \$1,900,041.

Custodial credit risk is the risk that, in the event of the failure of a financial institution, the Township will not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not covered by federal depository insurance and are uncollateralized. As of December 31, 2005, \$1,582,831 of the Authority's bank balances of \$1,900,041 was exposed to custodial credit risk, because it was uninsured and uncollateralized.

NOTE 3 - RECEIVABLES:

Receivables (all of which are due within one year) as of year end for the Authority, in the aggregate, are as follows:

	2005	2004
Charges for services Intergovernmental	\$ 61,471 <u>37,181</u>	\$ 68,017 32,758
Net receivables	\$ 98,652	\$100,775

NOTE 4 - CAPITAL ASSETS:

Capital asset activity of the Authority for the year ended December 31, 2005, was as follows:

	Beginning _balance_	Increases	Decreases	Ending balance

Subtotal	16,345,130	625,601		16,970,731	
Net capital assets	<u>\$10,284,057</u>	<u>\$ (622,601</u>)	<u> </u>	<u>\$9,661,456</u>	

NOTE 5 - DEFINED CONTRIBUTION PLAN:

The Authority contributes to a defined contribution pension plan covering substantially all of its employees. The Authority contributes 6.5% of annual employee compensation to the plan and the employees can voluntarily contribute up to 20% of their annual compensation. The Authority made the required contributions of \$19,803 and \$21,238 and the employees made their voluntary contributions of \$17,124 and \$16,413 for 2005 and 2004, respectively.

The Authority is not a trustee of these plans, nor is it responsible for investment management of plan assets.

NOTE 6 - CLAIMS ARISING FROM RISKS OF LOSS:

The Authority is exposed to various risks of loss to general liability, property and casualty, and workers' compensation. The risks of loss arising from general liability up to \$7,000,000, building contents, workers' compensation, and casualty are managed through purchased commercial insurance.

The Authority is self-insured for any liability associated with its underground fuel storage tanks and has pledged the assets owned by the Authority in conjunction with the self-insurance certification.
